## Projects

- [Portfolio / Side Projects](#) [BrianRosamilia.github.io](https://brianrosamilia.github.io)
- [Additional Projects / Contributions:](#) [BrianRosamilia@GitHub](#)

## Professional Experience

Giftogram – Parsippany, NJ – August 2017 – Present

### Senior JavaScript Engineer

- JavaScript engineer focused on Vue.js
- Created reusable directives, mixins, and filters to modularize functionality
- Contributed full-stack development for many core website features
- Created an open source Vue.js package that is used by both the business and NPM / Github users

ConnectiveRx – Whippany, NJ – July 2016 – August 2017

### Software Engineer

- Technical lead responsible for several ASP.NET MVC 5 projects
- Heavily involved in architectural discussions and decisions; investigated and created prototypes for several proofs of concept that affected the trajectory of the company
- Wrote JavaScript and .NET code daily while maintaining lead responsibilities

Prevalent Inc – Warren, NJ – October 2014 – June 2016

### Senior Software Engineer

- Responsible for creating web applications in both JavaScript (Node.js/Express/AngularJS/MongoDB) and .NET (MVC 5)
- Heavily involved in architectural discussions and decisions
- Involved in OWASP and Veracode security review
- Implemented and architected database reactive solutions using MongoDB oplog

Pursuit Solutions – Chester, NJ – July 2013 – October 2014

### Software Engineer

- Full stack Microsoft SaaS developer.
- Responsible for all ASP.NET and Web API services.
- Responsible for all web application security.
- Mentored other developers on ALM processes, implemented pair programming and participated in code reviews.
- Worked with offshore team to delegate work, communicate technical details, and helped ensure the software development life cycle moved forward in parallel.
- Technology focus on Entity Framework, LINQ, ASP.NET MVC and JavaScript/jQuery/Handlebars.js development.

PHX/Pay-Plus Solutions/Crossfire Technologies – Bedminster, NJ – May 2009 – July 2013

### Software Developer

- Created ASP.NET MVC applications in C# with Entity Framework, LINQ and JavaScript.
- Involved in the creation and launch of SaaS product Pay-Plus Solutions. Involved in the creation of the original ASP.NET MVC projects and founding principles of web development at PayPlus. Heavily utilized Entity Framework and ASP.NET MVC.
- Created automated tests using NUnit and xUnit.NET.
- Gave a presentation on LINQ that covered key LINQ topics (expression trees, anonymous types, extension methods and how to write composable LINQ).

AT&T- Morristown, NJ – Summer 2008

### Programmer / Database Developer

- Maintained a landlines database that was crucial in the event of a landline failure overseas.
- Automated tasks using scripting language knowledge.

## Education

Ramapo College of New Jersey

Major: Computer Science
